### Objective of the event:

- This event was organized for final year students as per Community Medicine curriculum.
- To provide students a practical approach towards understanding process of purification of water at mass level.
- To provide better insight about water purification, process of backwashing used for cleaning of rapid sand filter, chlorination and testing.

### Flow of Event:

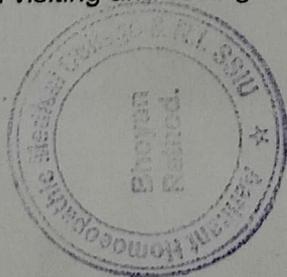

1. Departed from college at 10:00 AM
2. Reached at 10.15 am
3. Visit at Purification Plant 10.15 am onwards
4. Return after 1:00 pm

### Significance/Outcome:

- All the students sincerely participated in water purification plant visit.
- They were able to get better insight about process of purification, process of backwashing used for cleaning of rapid sand filter, chlorination and testing.
- Thorough explanation given by experts made it easy to understand and absorbed in their minds.
- It helped them to clear doubts related to topic

### Conclusion

- 16th feb 2026 students of 4th BHMS of Aarihant Homoeopathic Medical College and Research Institute have successfully completed visit to Jaspur Water Works , Gujarat for the purification of water as a part of their Community Medicine curriculum.
- A very informative & knowledgeable visit. Students were happy at the end as it was really worth visiting and seeing all process closely.
